

Dear E.,

Thank you for taking action to *End the Cage Age* for rabbits in Europe by contacting your Agriculture Minister. It is time for Ministers to finish the job that was started by the European Parliament last year: It is time for them to call for a ban on cages in rabbit farming.

If you haven't already done so, please help us spread the word further by asking your friends and family to also take action. You can send them this link:

ciwf.org.uk/rabbits-need-action

Or use the social media buttons below:

You can make a difference to the lives of millions of rabbits.

Thank you so much for all you do for animals.

Daphne

Subject: The face you make when you realise...

Put rabbits on the Ministers' agenda

Dear E.,

Almost 12 months ago you persuaded the European Parliament to vote against the worst cruelties in rabbit farming. Compassion supporters like you campaigned relentlessly to achieve this historic breakthrough. But, a year later, millions of rabbits are in the same cramped cages and filthy conditions.

Rabbits need action

Despite MEPs having called on Europe to End the Cage Age for rabbits, Agriculture Ministers are still lagging behind, and not even discussing the

steps that are needed in response to the Parliament's ground-breaking vote.

Creating new laws can be a slow process – but that's all the more reason why the Agriculture Ministers can't be allowed to continue to do nothing. Especially when 99% of rabbits farmed in the EU are confined in cages so small many of them cannot even stand upright.

Email your Minister

Cages are among the most outdated and cruel farming practices around. They severely restrict rabbits' natural behaviours and make it impossible for them to roam, run and hop, socialise or seek solitude.

Will you take the next step to End the Cage Age for rabbits? **Write to your Agriculture Minister today:** Tell them it's time to put rabbits on the agenda and seize this unique opportunity to improve the lives of farm animals.

Help end this cruelty

Thank you for your support,

Daphne Rieder
Campaign Manager

PS A big thanks goes to our wonderful supporter Sam Cadman who has created these images and videos for us. **Please join him and help rabbits to hop again.**
